| Nevada | — | — | — | — | 34 | 35 | 34 | 35 |
| New Mexico | 1,296 | 1,936 | — | — | — | — | 1,296 | 1,936 |

* The number of applications does not include those received from counties that did not meet the minimum requirement. Number of contracts in force will probably differ slightly from this figure.

The figures, by commodities, for number of farms covered are influenced materially by the necessity of counting the farm only once in meeting minimum participation requirements even though two or more commodities grown thereon are insured and even though two or more interests are insured. Furthermore, the figures for number of farms covered are also subject to the planting of the insured crop on the farm. Final figures, comparable to data for previous years, will probably differ substantially from those shown in this report.

| State | Cotton | | Flax | | Spring Wheat | | Total | |
